TESTING RESULTS

Standard achievement tests have been given within the month of February with the following pupils leading their respective grades from the third to eighth:

Grade 3—Barbara J. Parrish, Gertrude Wheeler, Jean F. Parsons, Lora M. Chase.

Grade 4—Hazel L. Purrington, Edwin M. Hibbard, Dorothy B. Lynch, Ruth L. Marsh, Eleanor E. Dewey.

Grade 5—Luevilda M. Placy, George E. Parrish, Reginald B. Placy, F. Robert Lynch.

Grade 6—Donald C. Hunt, Stanley O. Hann, Donald F. Mehan, Richard T. Hunt.

Grade 7—Lena P. Lynch, Joseph W. Haynes, Edward E. Goodrum, Mattie A. Sweeney.

Grade 8—Rowena Baker, Frances H. Rich, Evelyn G. Purrington, Wilmer L. Purrington.

PLANS

Our purposes have been to visit the schools as often as possible when weather permits, to carry necessary materials and books to the schools, to avoid waste and extravagance, to inspect, test, and maintain a personal interest in each pupil's progress so far as possible, to confer with teachers upon the courses and outlines of study furnished by the state.

We try to exercise good judgment in the selection of all text books and in their assignment to particular classes and schools. We also aim especially to make it possible for the seventh and eighth grade pupils to pursue those studies that have most direct values for living both now and after the completion of their school life, and for preparation to enter high school, well trained in fundamentals and good habits of health and study, in order that they shall not fail there but meet with success if possible from the very beginning.

We have felt just pride in the good reports of high school work well done, especially by pupils from the So. Hill and W. Stewartstown grammar schools.

We also commend those schools that have attained marked improvement in per cent of attendance over that of last year. I would mention especially the Bear Rock school which advanced from 91.72 last year to 96.17 this year. The No. Hill school also showed marked improvement in attendance rising from 92.9 last year to 95.62 this year. The Hollow school enjoys the distinction of leading all in per cent of attendance.

These figures are encouraging this year when in most communities there has been an unusual number of cases of illness.

There were fourteen graduates last year and it seems likely that there will be an equal number this year. Many graduates go on to high school and some eventually to normal schools and colleges.

The obstacles that boys and girls discover and overcome in the course of their education are designed to fit them for strong men and women, who will be needed later in life to fill important positions and to do hard jobs that no one else can be found to do. Those who acquire the habit of persistency, who will not admit defeat in any worthy project, help to make our state and country not only stronger but better.

Those who allow the habit of weakness and of complaining to overcome them should take heart early and try hard to succeed in little things which will train them to do greater tasks yet to come.

We feel that the teachers have had good cooperation this year by both parents and pupils. We appreciate such an attitude and trust that the townspeople will not forget the importance of education in the growth of their youngsters and that they will visit our schools, talk with teachers and superintendent, and try to vigorously support the cause of public education.

We wish to thank the school board for their vigorous support and activity and all who have contributed for the support and encouragement of public education.

Respectfully submitted,

A. D. WIGGIN, Superintendent
